## Work experience

### Freelance web developer

*Ozzy digital, 2021-Current*

Web design tailored to the client's needs in freelance mode, using JavaScript, HTML5, CSS3, Bootstrap, Node.js with Express if the project requires the Backend.

### Software developer

*Criteria Online, 2022- Current*

Software Developer with specific experience in designing and implementing PIM (Product Information Management) Catalogs. Expert in developing systems that optimize the management, organization and distribution of product information. Expert in creating efficient IT solutions that ensure data integrity and consistency in business contexts. Committed to continuous innovation and adapting to the latest trends in PIM technologies. Currently responsible for automated bidirectional connections between different software (PIM, DAM with ERP and eCommerce).

### Backend developer and project manager

*Inkua, August 2023 - December 2023*

Internship carried out at the National Technological University of Argentina for <https://inkua.de/>, where I held the role of project manager and backend developer. I selected the technologies to be used for the project and the team's skills, making use of SCRUM methodologies and developing the backend of the project assigned to us. The project consisted of the creation of a site to facilitate meetings between people and care services, cleaning, etc., in the meeting place.

## DATA

Birth date: 03/07/1992

Locality: Arezzo, Italia.
